

Old business

Kathy will help with newsletter if we need help too.

New business

Kathy Lentz wanted info on the 2 meter DX program that uses internet as the link
Jack - repeater located in Eureka area. 147.445. Can be tied into internet and you can use it to talk to hams all over the world.

Open Forum

Encourage everyone to pay their dues

Send to:

SHARC

P.O. Box 701

Redway, CA 95560

Dues are from Jan. 1 through Dec. 31.

Where is antenna going? Whitethorne CDF station? Or Alderpoint? Chemise Mountain?
State has new tower and vault there. Parks, sheriff, fire repeaters. Located right next to 94 repeater.

Kathy wants to organize a picnic to the repeater site.

Theresa - Suggestion for newsletter

Someone should gather up frequencies and publish that in newsletter along with names and call signs of local people

Kim - You can find info about the IRLP (Internet Radio Linking Project) and the local frequencies available on the web site. Check the newsletter section and look up the February 2002 newsletter for full directions on using the internet repeater link.

Sally - will publish call signs, repeaters, and names in the next newsletter.

Jack has a list available that he could get ready for the newsletter.

When is next meeting?

1st Tuesday in March

March 25th.

Will be at firehouse again. Will try on-air every other month.

Meeting adjourned at 8:06 p.m
